Sunday 29 Nov 1764 The preceding audit was perused
 by the Genl Court & having heard that sundry debts are
 resting to the Trade which have not been brought into
 the Trades audit for some years past & that there are
 sundry debts due by them which do not appear from
 the face of the audit & sundry members are com-
 plaining thereof For remedy whereof This Court
 appoint Conveners Smart, Conveners Skirling, George
 Marver, Patrick Brunny, John Walker & John
 Cochran as a committee to meet with the Deacon
 & Box master of the Weaver Trade & such a committee
 as the Weaver Trade shall name, & which committee
 of the Weaver Trade are ordered to lay before said
 committee of the General fund a full & exact state of
 the debts due to by them & which committee of
 this Court with the present conveners who is
 added thereto are hereby authorised to give orders
 & directions relative to the state of the Weaver
 Trades affairs & to which the weavers are to
 subject themselves & to report within a month
 hence at furthest James Spindler & Co.

June 26th December 1764 The Committee Appointed by the
Managers of the General Fund at their last Meeting to meet with the
Committee of the Weaver Trade Accordingly this Day met when
the Weavers laid before the Committee a bill of their outstanding
debts, sundry of which were thought to be irrecoverable but such
as were thought to be recoverable The Committee Appointed the
Weavers Pro-master to take such methods he shall think best for
recovery thereof & to charge himself therewith in his Accounts
William Smith present Deacon to the Weavers represented that
at Martinmas 1763 there was thirty pound Sterling borrowed
on the Trades Accot from Widow Greatie for which the said
William Smith & William Cowper granted bill in name of the
Trade and that the bill was not entred into the Trades Last
Accounts as it should have regularly been that the cause of
granting that bill was for paying meall due by the Trade
and the reason of not entering the same into the Book was that
the Deacon & Pro-master had reason to believe that the money
would be recovered from such members as were resting the same
and of which a List was just now produced & which List was
given into the Pro-master and he Appointed by the Committee
to do what he can to recover the same and the Committee appoint
the present Deacon & Pro-master to charge themselves with the
said sum so borrowed in their next Accounts & to take credit
for such of the said outstanding List just now produced as shall
be then resting & for the future this Committee appoint the
Weaver Trade regularly in their Annual Accounts to charge
themselves with money to be borrowed & to take credit in
their Accounts for meall that shall be outstanding and not to
granomill the same in loose Lists from Pro-master to Pro-master
as has been the practise for some time past and the said
Committee likewise prohibit the Deacon & Pro-master for the
future from giving meall to any Members untill he find
sufficient caution which the Committee think will be a mean
to prevent the Trades Stock from being hurt They also order
the Pro-master to keep a Regular Book of the Disposal of the
Trades meall among members & cause each sign in said Book the
quantity he receives so as to Vouch the delivery.

The Committee also orders the Trade to keep a Ledger
book & enter therein every transaction of the Trade of moment
or observation & likewise Discharge the Deacon & Pro-master
of

of said Trade to borrow money & grant their Bill as such without
the consent at least of the Council of the Trade & a Sederunt thereof
entered into said Book Declaring the Cause of Borrowing

This Committee appoint the present Conveener & Deacon of the
Weavers to sign this Sederunt

The Trade are hereby expressly prohibited & Discharged from admitting
any person as Members of their Incorporation whether masters or
Apprentices untill first they pay Ready money for Dues of Entry
and that they shall take no Bill or other Security therefore with
Certification if they do the Deacon & Broxmaster for the same shall
be liable in payment thereof to the Trade. And that it shall be
Competent for the General fund to pursue therefore
